2 NEW UPDATES:

1. Conclusion Extension-1

2. Summary of my life as hidden slave

This page is about the state of my complaint pages, meaning which pages are completed and done, and which I am still working on.

Once a page is reedited and completed then the background will be green.

My goal is to complete them all by October 2021.

Important note from 12.12.2021: Due to forced upon me situations, among other sicknesses forced upon me on 2.11.2021, I was not able to work on my complaint pages since August 2021, and if you look closely on the start of the sickness date which was on 2.11.2021 at 5 o'clock in the morning, where then I was forced to be hospitalized for 16 days and for the following weeks thereafter and until 12.12.2021, and even though I was at my housing, yet I was physically and health wise unable to work on my complaint pages. In other words, I was 100% prevented with telepathy to continue to prevent me to reach my goal in completing my complaint pages by October 2021 and then forced upon me the sickness just one day after October 2021 to show me that they do not like my complaint pages, for more info see the conclusion page under the section "Preventing me to continue on my complaint pages", for now and here, and all I have to say to them for not liking my complaint pages and exposing them is: **Tough luck to you!**

If I remember or discover something vital and would like to add it to my complaint pages after they are all completed, then I will add it only to one of the following 3 documents, even if it is belonging to another page, and this to make it easier to find new updates:

1) Telepathy
2) Problems and possible solutions
3) Conclusion

Practically, the only page is left to write is the conclusion page. The reason I would like to reedit all pages before I can write the conclusion page is to gather my thoughts while also concluding all other pages by seeing if I forgot the one thing or other and simultaneously correcting them linguistically to the best of my ability. Not to forget that even though I strongly believe that I was 100% born in the UK or USA or Germany or the Netherlands (**the 4 countries that kept me as a hidden slave where my biological family**

had/have a huge control), yet they kidnapped me to Cairo, Egypt on 10/11 January 1960 and caused me a total amnesia, that practically wiped off all my previous knowledge including where I was, who is my family and what language I spoke prior to 10/11 January 1960. Meaning My English language knowledge is limited to self-street-learning and not through schools. In short, I am not a professional writer and most probably there will still be many linguistic errors!

Note over page count: The page count is not yet accurate, at the end I will adjust it. Also please note that the text was enlarged to be readable in small screens which will double or triple the page count, meaning a 100 pages document with normal size text, would become 200-300 pages when enlarging the text for small screen. At the end the page count will be based on large text.
